Five weeks of week-long workshops
Weeks of June 10-14, June 17-21, June 24-28,
July 29-August 2, and August 5-9, 2024

Why are FAM workshops extra special?

The Museum is a unique environment where children can be inspired and exposed to original world-class artwork and antiquities, not just images in a book or posters on a wall. The Fresno Art Museum is 75 years old, and we have been told by many that classes at the Museum were a big part of their growing up in Fresno, creating long-lasting and wonderful memories. Our goal is to continue that legacy by offering classes to engage children and foster a love for the arts, learning, and discovery.

Our workshops are taught by working and teaching professional artists who bring their special talents and knowledge to every session they teach. All of our teaching artists have had training and experience in working with children, and all strive to transfer their own love of the arts to each of their students in a lively, engaging, and exciting way.
